Global Ship Lease Reports Results for the First Quarter of 2017

LONDON, ENGLAND — May 2, 2017 - Global Ship Lease, Inc. (NYSE:GSL) (the “Company”), a containership charter owner, announced today its unaudited results for the three months ended March 31, 2017.

First Quarter Highlights

- Reported operating revenues of \$39.6 million for the first quarter 2017
- Reported net income for common shareholders for the first quarter 2017 of \$6.8 million; normalized net income was also \$6.8 million
- Generated \$28.0 million of Adjusted EBITDA⁽¹⁾ for the first quarter 2017

Ian Webber, Chief Executive Officer of Global Ship Lease, stated, “During the first quarter of 2017, we continued to execute our core strategy, maximizing the value of our long-term time charters with high-quality counterparties, maintaining high levels of vessel utilization and closely controlling costs. Our success in this regard has enabled us to continue generating strong, stable cashflows.”

Mr. Webber continued, “With high levels of scrapping and minimal vessel ordering in the year-to-date, we have seen significant improvement in spot market charter rates in the last few weeks. This trend has been particularly pronounced for the mid-sized and smaller vessel classes where we focus. While most of our vessels continue on their current charters for multiple years, we are encouraged by the improvement in the spot market, which, if sustained, will benefit those vessels that are due to become open later this year and early next. We believe that our established relationships with strong counterparties, consistent cashflows, and ongoing deleveraging of our balance sheet position Global Ship Lease to benefit from market improvement.”

SELECTED FINANCIAL DATA – UNAUDITED

(thousands of U.S. dollars)

	Three months ended <u>March 31,</u> <u>2017</u>	Three months ended <u>March 31,</u> <u>2016</u>
Operating Revenues	39,642	42,610
Operating Income	18,434	18,385
Net Income for common shareholders	6,794	4,557
Adjusted EBITDA ⁽¹⁾	28,034	29,319
Normalized Net Income ⁽¹⁾	6,794	5,429

- (1) Adjusted EBITDA and Normalized net income are non-US Generally Accepted Accounting Principles (US GAAP) measures, as explained further in this press release, and are considered by Global Ship Lease to be useful measures of its performance. Reconciliations of such non-GAAP measures to the most directly comparable US GAAP measure are provided in this Earnings Release.

Operating Revenues and Utilization

The fleet generated operating revenues from fixed-rate time charters of \$39.6 million in the three months ended March 31, 2017, down \$3.0 million or 7.0% on operating revenues of \$42.6 million for the comparative quarter in 2016. The reduction in revenue is mainly due to 68 fewer operating days, mainly as a result of three dry-dockings in the quarter, compared to none in the prior period, and to the prior period being a leap year, together with the effect of the amendments to the charters of *Marie Delmas* and *Kumasi*, effective August 1, 2016, whereby the previous charter rate of \$18,465 per day was reduced to \$13,000 per day against the granting of options in our favor to extend the charters at \$9,800 per day in three periods, potentially to end 2020. There were 1,620 ownership days in the quarter, down on 1,638 ownership days in the comparative quarter, due to the leap year. In the first quarter 2017, there were 50 days offhire, 47 of which were for three scheduled dry-dockings, giving an overall utilization of 96.9%. There was no offhire in the first quarter 2016, and consequently utilization was 100.0%.

The table below shows fleet utilization for the three months ended March 31, 2017 and 2016, and for the years ended December 31, 2016, 2015, 2014, 2013 and 2012.

Days	Three months ended		Year ended				
	Mar 31, 2017	Mar 31, 2016	Dec 31, 2016	Dec 31, 2015	Dec 31, 2014	Dec 31, 2013	Dec 31, 2012
Ownership days	1,620	1,638	6,588	6,893	6,270	6,205	6,222
Planned offhire - scheduled drydock	(47)	0	(100)	(9)	(48)	(21)	(82)
Unplanned offhire	(3)	0	(3)	(7)	(12)	(7)	(16)
Idle time	0	0	0	(13)	(64)	0	0
Operating days	1,570	1,638	6,485	6,864	6,146	6,177	6,124
Utilization	96.9%	100.0%	98.4%	99.6%	98.0%	99.5%	98.4%

There were three regulatory dry-dockings in the three months ended March 31, 2017; a total of five regulatory dry-dockings are planned for the year. There were six regulatory drydockings in 2016.

Vessel Operating Expenses

Vessel operating expenses, which include costs of crew, lubricating oil, spares and insurance, were \$10.4 million for the three months ended March 31, 2017, down 8.7% from \$11.4 million for the three months ended March 31, 2016. The average cost per ownership day fell \$535 per day, or 7.7%, from \$6,961 in the three months ended March 31, 2016 to \$6,426 for the three months ended March 31, 2017. The reduction is due to lower lubricating oil costs from unit price reductions and fewer steaming days, and to lower repairs and maintenance, in part due to the timing of purchases.

Depreciation

Depreciation for the three months ended March 31, 2017 was \$9.6 million, compared to \$10.9 million in the three months ended March 31, 2016, with the reduction due to the effect of lower book values for a number of vessels following impairment write downs in 2016.

General and Administrative Costs

General and administrative costs incurred were \$1.2 million in the three months ended March 31, 2017, compared to \$2.0 million in the three months ended March 31, 2016. The reduction is mainly due to lower legal and other professional fees.

Other Operating Income

Other operating income in the three months ended March 31, 2017 was \$42,000, compared to \$81,000 for the three months ended March 31, 2016.

Adjusted EBITDA

As a result of the above, Adjusted EBITDA was \$28.0 million for the three months ended March 31, 2017, down from \$29.3 million for the three months ended March 31, 2016.

Interest Expense

Debt at March 31, 2017 comprises amounts outstanding on our 10% Notes, the revolving credit facility which was drawn March 11, 2015, and the secured term loan which was drawn September 10, 2015.

Interest expense for the three months ended March 31, 2017, was \$11.0 million, down \$2.1 million on the interest expense for the three months ended March 31, 2016 of \$13.1 million. The reduction is mainly due to a lower principal amount outstanding on the Notes, following the 2015 excess cashflow and sale proceeds tender offer (relating to the sales of two vessels in late 2015) which closed in March 2016 and open market purchases of Notes between April 1, 2016 and December 31, 2016, which in aggregate retired \$53.9 million principal amount of the Notes. Further, the three months ended March 31, 2016 included \$0.9 million aggregate charge for the premium paid in March 2016 in relation to the tender offer and accelerated write off of the portion of the original issue discount and deferred financing costs attributable to the Notes which were retired.

The tender offer for 2016 excess cashflow closed in April 2017, resulting in \$19.5 million principal amount of the Notes being purchased, at a purchase price of 102% plus accrued interest, and subsequently retired.

Interest income for the three months ended March 31, 2017 and 2016 was not material.

Taxation

Taxation for the three months ended March 31, 2017 and 2016 was not material.

Earnings Allocated to Preferred Shares

The Series B preferred shares, issued on August 20, 2014, carry a coupon of 8.75%, the cost of which for the three months ended March 31, 2017 was \$0.8 million.

Net Income Available to Common Shareholders and Normalized Net Income

Net income available to common shareholders for the three months ended March 31, 2017 was \$6.8 million. For the three months ended March 31, 2016, net income was \$4.6 million. This year-over-year increase is mainly due to reduced interest expense, depreciation and operating costs, partially offset by lower operating revenues.

Normalized net income for the three months ended March 31, 2017 was the same as that reported.

Normalized net income for the three months ended March 31, 2016, which excludes the charges associated with the excess cash flow tender offer completed in the quarter, was \$5.4 million.

Annual Report on Form 20-F

Global Ship Lease, Inc has filed its Annual Report for 2016 with the Securities and Exchange Commission. A copy of the report can be found under the Investor Relations section (Annual Reports) of the Company's website at <http://www.globalshiplease.com>. Shareholders may request a hard copy of the audited financial statements free of charge by contacting the Company at info@globalshiplease.com or by writing to Global Ship Lease, Inc, care of Global Ship Lease Services Limited, Portland House, Stag Place, London SW1E 5RS or by telephoning +44 (0) 207 869 8006.

About Global Ship Lease

Global Ship Lease is a containership charter owner. Incorporated in the Marshall Islands, Global Ship Lease commenced operations in December 2007 with a business of owning and chartering out containerships under long-term, fixed rate charters to top tier container liner companies.

At March 31, 2017, Global Ship Lease owned 18 vessels with a total capacity of 82,312 TEU and an average age, weighted by TEU capacity, of 12.3 years. All vessels are currently fixed on time charters, 15 with CMA CGM. The average remaining term of the charters is 3.4 years or 3.7 years on a weighted basis.

Reconciliation of Non-U.S. GAAP Financial Measure

A. ADJUSTED EBITDA

Adjusted EBITDA represents net income before interest income and expense including amortization of deferred finance costs, earnings allocated to preferred shares, income taxes, depreciation, amortization and impairment. Adjusted EBITDA is a non-US GAAP quantitative measure used to assist in the assessment of the Company's ability to generate cash from its operations. We believe that the presentation of Adjusted EBITDA is useful to investors because it is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry. Adjusted EBITDA is not defined in US GAAP and should not be considered to be an alternate to Net income or any other financial metric required by such accounting principles. Our use of Adjusted EBITDA may vary from the use of similarly titled measures by others in our industry.

Income tax	10	6
Earnings allocated to preferred shares	766	766
Adjusted EBITDA	<u>28,034</u>	<u>29,319</u>

B. Normalized net income

Normalized net income represents net income adjusted for the premium paid on the tender offer for the Notes and the gain made on open market purchases of the Notes, together with the related accelerated amortization of deferred financing costs and original issue discount, and for impairment charges. Normalized net income is a non-GAAP quantitative measure which we believe will assist investors and analysts who often adjust reported net income for non-operating items that do not affect operating performance or operating cash generated. Normalized net income is not defined in US GAAP and should not be considered to be an alternate to net income or any other financial metric required by such accounting principles. Our use of Normalized net income may vary from the use of similarly titled measures by others in our industry.

Safe Harbor Statement

This communication contains forward-looking statements. Forward-looking statements provide Global Ship Lease's current expectations or forecasts of future events. Forward-looking statements include statements about Global Ship Lease's expectations, beliefs, plans, objectives, intentions, assumptions and other statements that are not historical facts. Words or phrases such as "anticipate," "believe," "continue," "estimate," "expect," "intend," "may," "ongoing," "plan," "potential," "predict," "project," "will" or similar words or phrases, or the negatives of those words or phrases, may identify forward-looking statements, but the absence of these words does not necessarily mean that a statement is not forward-looking. These forward-looking statements are based on assumptions that may be incorrect, and Global Ship Lease cannot assure you that these projections included in these forward-looking statements will come to pass. Actual results could differ materially from those expressed or implied by the forward-looking statements as a result of various factors.

The risks and uncertainties include, but are not limited to:

- future operating or financial results;
- expectations regarding the strength of future growth of the container shipping industry, including the rates of annual demand and supply growth;
- the financial condition of CMA CGM (the company's principal charterer and main source of operating revenues) and other charterers and their ability to pay charterhire in accordance with the charters;
- the overall health and condition of the U.S. and global financial markets;
- Global Ship Lease's financial condition and liquidity, including its ability to obtain additional financing to fund capital expenditures, vessel acquisitions and for other general corporate purposes and its ability to meet its financial covenants and repay its borrowings;
- Global Ship Lease's expectations relating to dividend payments and forecasts of its ability to make such payments including the availability of cash and the impact of constraints under its first priority secured notes;
- future acquisitions, business strategy and expected capital spending;
- operating expenses, availability of key employees, crew, number of off-hire days, drydocking and survey requirements, costs of regulatory compliance, insurance costs and general and administrative costs;
- general market conditions and shipping industry trends, including charter rates and factors affecting supply and demand;
- assumptions regarding interest rates and inflation;
- change in the rate of growth of global and various regional economies;
- risks incidental to vessel operation, including piracy, discharge of pollutants and vessel accidents and damage including total or constructive total loss;
- estimated future capital expenditures needed to preserve Global Ship Lease's capital base;
- Global Ship Lease's expectations about the availability of vessels to purchase, the time that it may take to construct new vessels, or the useful lives of its vessels;
- Global Ship Lease's continued ability to enter into or renew charters including the re-chartering of vessels on the expiry of existing charters, or to secure profitable employment for its vessels in the spot market;
- the continued performance of existing charters;
- Global Ship Lease's ability to capitalize on management's and directors' relationships and reputations in the containership industry to its advantage;
- changes in governmental and classification societies' rules and regulations or actions taken by regulatory authorities;
- expectations about the availability of insurance on commercially reasonable terms;
- unanticipated changes in laws and regulations; and
- potential liability from future litigation.

Forward-looking statements are subject to known and unknown risks and uncertainties and are based on potentially inaccurate assumptions that could cause actual results to differ materially from those expected or implied by the forward-looking statements. Global Ship Lease's actual results could differ materially from those anticipated in forward-looking statements for many reasons specifically as described in Global Ship Lease's filings with the SEC. Accordingly, you should not unduly rely on these forward-looking statements, which speak only as of the date of this communication. Global Ship Lease undertakes no obligation to publicly revise any forward-looking statement to reflect circumstances or events after the date of this communication or to reflect the occurrence of unanticipated events. You should, however, review the factors and risks Global Ship Lease describes in the reports it will file from time to time with the SEC after the date of this communication.

Notes to the Interim Unaudited Consolidated Financial Statements

(Expressed in thousands of U.S. dollars)

1. General

On August 14, 2008, Global Ship Lease, Inc. (the “Company” or “GSL”) merged indirectly with Marathon Acquisition Corp. (“Marathon”), a company then listed on The American Stock Exchange. Following the merger, the Company became listed on the New York Stock Exchange on August 15, 2008.

2. Nature of Operations and Basis of Preparation

(a) Nature of Operations

The Global Ship Lease group owns and charters out containerships. As of March 31, 2017, the group owned 18 vessels; 15 were time chartered to CMA CGM and three to Orient Overseas Container Lines with remaining charter periods ranging from 0.75 to 8.75 years.

The following table provides information about the 18 vessels owned as at March 31, 2017:

Vessel Name	Capacity in TEUs (1)	Year Built	Purchase Date by GSL	Charterer	Charter Remaining Duration (years) (2)	Daily Charter Rate

2. Nature of Operations and Basis of Preparation (continued)

(b) Basis of Preparation

The majority of the Company's revenues are derived from charters of vessels to CMA CGM. The Company is consequently highly dependent on the performance by CMA CGM of its obligations under these charters. The container shipping industry is volatile and has been experiencing a sustained cyclical downturn. Many container shipping companies have reported financial losses.

If CMA CGM ceases doing business or fails to perform its obligations under the charters, the Company's business, financial position and results of operations would be materially adversely affected as it is probable that, even if the Company was able to find replacement charters, such replacement charters would be at significantly lower daily rates and shorter durations. If such events occur, there would be significant uncertainty about the Company's ability to continue as a going concern.

These consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, nor to the amounts and classification of liabilities that may be necessary should the Company be unable to continue as a going concern.

3. Accounting Policies and Disclosure

The accompanying financial information is unaudited and reflects all adjustments, consisting solely of normal recurring adjustments, which, in the opinion of management, are necessary for a fair statement of financial position and results of operations for the interim periods presented. The financial information does not include all disclosures required under United States Generally Accepted Accounting Principles ("US GAAP") for annual financial statements. These interim unaudited consolidated financial statements should be read in conjunction with the Company's financial statements as of December 31, 2016 filed with the Securities and Exchange Commission on April 12, 2017 in the Company's Annual Report on Form 20-F.

Impairment Testing

Due to continuing poor industry conditions, impairment tests were performed on a vessel by vessel basis as at December 31, 2016. Based on the assumptions made, an impairment charge on four vessels, totalling \$63,065, was recognised in the financial statements for the three months ended December 31, 2016.

The assumptions used involve a considerable degree of estimation. Actual conditions may differ significantly from the assumptions and thus actual cash flows may be significantly different to those expected with a material effect on the recoverability of each vessel's carrying amount. The most significant assumptions made for the determination of expected cash flows are (i) charter rates on expiry of existing charters, which are based on forecast charter rates, where relevant, for the four years from the date of the impairment test and a reversion to the historical mean for each vessel thereafter (ii) off-hire days, which are based on actual off-hire statistics for the Company's fleet (iii) operating costs, based on current levels escalated over time based on long term trends (iv) dry docking frequency, duration and cost and (v) estimated useful life which is assessed as a total of 30 years. In the case of an indication of impairment, the results of a recoverability test would also be sensitive to the discount rate applied.

3. Accounting Policies and Disclosure (continued)

Recently issued accounting standards

There have been no applicable accounting standards or updates issued since December 31, 2016.

Management do not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material impact on the interim unaudited consolidated financial statements of the Company.

4. Vessels in Operation, less Accumulated Depreciation

Due to continuing poor industry conditions, impairment tests were performed on a vessel by vessel basis as at December 31, 2016 (see note 3), which resulted in an impairment charge on four vessels, totalling \$63,065, being recognised in the three months ended December 31, 2016.

Impairment tests were performed on two of the group's vessels as at July 31, 2016, following amendments to the terms of their charters, which resulted in an impairment charge of \$29,357 being recognised in the three months ended September 30, 2016.

5. Long-Term Debt (continued)

(a) 10.0% First Priority Secured Notes Due 2019

On March 19, 2014 the Company completed the sale of \$420,000 of 10.0% First Priority Secured Notes which mature on April 1, 2019 (the "2019 Notes"). Proceeds after the deduction of the original issue discount, but before expenses, amounted to \$413,700.

Interest on the 2019 Notes is payable semi-annually on April 1 and October 1 of each year. As at March 31, 2017, the 2019 Notes were secured by first priority ship mortgages on 16 of the Company's 18 vessels (the "Mortgaged Vessels") and by assignments of earnings and insurances, a pledge over certain bank accounts, as well as share pledges over each subsidiary owning a Mortgaged Vessel. In addition, the 2019 Notes are fully and unconditionally guaranteed, jointly and severally, by the Company's 18 vessel owning subsidiaries and Global Ship Lease Services Limited.

The original issue discount is being amortised on an effective interest rate basis over the life of the 2019 Notes.

Under the terms of the 2019 Notes the Company is required within 120 days following the end of each financial year, in which the Company has at least \$1,000 of Excess Cash Flow, as defined, to offer to purchase up to a maximum offer amount of \$20,000, such amount being the aggregate of 102% of the principal amount plus any accrued and unpaid interest thereon, up to, but not including, the purchase date. The first such offer, for 2014, in the maximum amount of \$20,000, was launched on April 21, 2015. At the close of this offer, \$350 nominal amount of 2019 Notes was tendered and accepted.

Following the sale of two vessels (see note 4) secured to the 2019 Notes in November and December 2015, the Company was required to offer the net sale proceeds, less a proportion to be used to repay part of the Revolving Credit Facility (see note 5(c)), to Noteholders ("Collateral Sale Offer") within 90 days of receipt of the sale proceeds. The terms of the Collateral Sale Offer are the same as those of the annual Excess Cash Flow Offer.

Consequently, on February 2, 2016, the Company launched a combined Excess Cash Flow Offer for 2015 and the Collateral Sale Offer in an aggregate amount of \$28,417 ("Maximum Offer Amount"), at a purchase price of 102% of the aggregate principal amount plus any accrued and unpaid interest thereon, up to, but not including, the purchase date. At the close of this offer, the nominal amount of 2019 Notes tendered exceeded the Maximum Offer Amount and \$26,662 nominal amount of the 2019 Notes was accepted on a pro rata basis.

The third offer, for 2016, in the maximum amount of \$20,000, was launched on March 22, 2017. At the close of this offer on April 19, 2017, the 2019 Notes tendered exceeded the Maximum Offer Amount and \$19,501 nominal amount of the 2019 Notes was accepted on a pro rata basis.

In May, August and November, 2016, the Company purchased \$4,200, \$5,000 and \$18,000 nominal amount of the 2019 Notes respectively, in the open market. This gave rise to gains of \$452, \$475 and \$1,938, which were included within Interest Expense in the Consolidated Statements of Income. These 2019 Notes were subsequently cancelled.

(b) Revolving Credit Facility

On March 19, 2014, and in connection with the 2019 Notes, the Company entered into a \$40,000 senior secured revolving credit facility with Citibank N.A. (the "Revolving Credit Facility"). This facility matures on October 1, 2018. The interest rate under the facility is USD LIBOR plus a margin of 3.25% and is payable at least quarterly. A commitment fee of 1.30% per annum is due quarterly on undrawn amounts.

The collateral provided to the 2019 Notes also secures, on a super senior first priority basis, the Revolving Credit Facility. Up to and including December 31, 2015, the Company was required to have had a minimum cash balance of \$15,000 on each test date, being June 30 and December 31 in each year. After this date, the minimum cash balance on each test date increased to \$20,000.

Amounts outstanding under this facility can be prepaid without penalty, other than breakage costs in certain circumstances. During the quarter ended March 31, 2015, \$40,000 was drawn down under the Revolving Credit Facility to assist with the purchase of OOCL Qingdao on March 11, 2015. Following the sale of two secured vessels (see note 4) in November and December 2015, \$800 of the net sale proceeds was applied to reduce amounts outstanding under the facility.

(Expressed in thousands of U.S. dollars)

5. Long-Term Debt (continued)

(c) Secured Term Loan

On July 29, 2015, the Company entered into a \$35,000 secured term loan with DVB Bank SE (the "Secured Term Loan"). This facility matures five years after drawdown, with early repayment, inter alia, if the 2019 Notes are not refinanced by November 30, 2018, or if the secured vessel ceases to be employed on a charter for a period in excess of 90 days. The interest rate under the loan is USD LIBOR plus a margin of 2.75%, until November 30, 2018 and 3.25% thereafter, and is payable at least quarterly.

The Secured Term Loan is secured by a first priority ship mortgage on OOCL Tianjin and by assignment of earnings and insurances for the same vessel.

The Secured Term Loan is repayable in 20 equal quarterly instalments, commencing three months after drawdown. \$35,000 was drawn down under the Secured Term Loan on September 10, 2015. The loan agreement requires an additional \$1,400 to be repaid over eight equal quarterly instalments to provide a reserve for potential enhancement expenditure on the secured vessel ahead of the expiry of the initial charter to OOCL. These additional instalments reduce the debt balance and can be redrawn to fund the enhancement work, or utilized to permanently reduce the quarterly instalments for the remainder of the term of the loan if no such work is required.

The Secured Term Loan has the same Cash Balance financial covenant as that in the Revolving Credit Facility. In addition, there is a minimum Shareholders Equity covenant of \$200,000, also to be tested semi-annually on June 30 and December 31. The Secured Term Loan was amended on November 30, 2016 to exclude from the definition of Shareholders Equity the effect of any impairment charges recognised after July 1, 2016. The amendment also provided for accelerated amortization totalling \$5.0 million to be paid equally in five quarterly instalments, commencing fourth quarter 2016. Repayments otherwise payable from March 2018 are reduced pro rata for the accelerated amortization.

(d) Repayment Schedule

Based on scheduled and estimated repayments from April 1, 2017 the long term debt will be reduced in each of the relevant periods as follows:

Year ending March 31,	
2018	\$ 29,269
2019	390,160
2020	4,673
2021	2,336
Less: amortization of original issue discount	(2,108)
Less: amortization of deferred financing costs	(6,237)
	<u>\$418,093</u>

Global Ship Lease, Inc.

Notes to the Interim Unaudited Consolidated Financial Statements (continued)

(Expressed in thousands of U.S. dollars)

5. Long-Term Debt (continued)

(e) Deferred financing costs

	March 31, 2017	December 31, 2016
Opening balance	\$ 7,100	\$ 10,611
Amortization included within interest expense	(863)	(3,511)
Closing balance	<u>\$ 6,237</u>	<u>\$ 7,100</u>

Deferred financing costs are amortized on an effective interest rate basis over the life of the financings for which they were incurred.

The Company has adopted the accounting standards update issued by FASB in April 2015 “Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs”. Effective December 31, 2015, debt issuance costs, other than the up-front arrangement fee for the Revolving Credit Facility, related to our recognized debt liabilities are presented as a direct deduction from the carrying amount of that debt. The arrangement fee for the Revolving Credit Facility is presented as Other Long Term Assets.

6. Related Party Transactions

CMA CGM is presented as a related party as it was, until the merger referred to in note 1, the parent company of Global Ship Lease, Inc. and at March 31, 2017, is a significant shareholder of the Company, owning Class A and Class B common shares representing a 44.4% voting interest in the Company.

Amounts due to and from CMA CGM companies are shown in the Consolidated Balance Sheets. The current account balances at March 31, 2017 and December 31, 2016 relate to amounts payable to or recoverable from CMA CGM group companies. The majority of the Company’s charter arrangements are with CMA CGM and one of its subsidiaries provides the Company with ship management services on the majority of its vessels.

Time Charter Agreements

The majority of the Company’s time charter arrangements are with CMA CGM. Under these time charters, hire is payable in advance and the daily rate is fixed for the duration of the charter. The charters are for remaining periods as at March 31, 2017 of between 0.75 and 8.75 years (see note 2(a)). Of the \$597,814 maximum contracted future charter hire receivable (including all periods at the Company’s option) for the fleet set out in note 7, \$555,449 relates to the 15 vessels that were chartered to CMA CGM as at March 31, 2017. Revenues generated from charters to CMA CGM are shown separately in the Consolidated Statements of Income.

Ship Management Agreements

At March 31, 2017, the Company outsourced day to day technical management of 13 of its vessels to CMA Ships Limited (“CMA Ships”), a wholly owned subsidiary of CMA CGM. The Company pays CMA Ships an annual management fee of \$123 per vessel (2016: \$123) and reimburses costs incurred by CMA Ships on its behalf, mainly being for the provision of crew, lubricating oils and routine maintenance. Such reimbursement is subject to a cap per day per vessel, depending on the vessel. The impact of the cap is determined annually on a vessel by vessel basis for so long as the initial charter remains in place; no claims have been made under the cap agreement. Ship management fees related to CMA Ships are shown separately in the Consolidated Statements of Income.

Except for transactions with CMA CGM companies, the Company did not enter into any other related party transactions.

7. Commitments and Contingencies

Charter Hire Receivable

The Company has entered into time charters for its vessels. The charter hire is fixed for the duration of the charter. The maximum contracted annual future charter hire receivable (not allowing for any offhire and assuming expiry at the mid-point between the earliest and latest possible end dates) for the 18 vessels as at March 31, 2017, and assuming the owner's options included in the charters for Kumasi and Marie Delmas are exercised, is as follows:

Year ending March 31,	
2018	156,196
2019	119,840
2020	105,176
2021	82,209
2022	49,996
Thereafter	84,397
	<u>\$597,814</u>

8. Share Capital

At March 31, 2017 the Company had two classes of common shares. The rights of holders of Class B common shares are identical to those of holders of Class A common shares, except that the dividend rights of holders of Class B common shares are subordinated to those of holders of Class A common shares. Dividends, when declared, must be paid as follows:

- firstly, to all Class A common shares at the applicable rate for the quarter;
- secondly, to all Class A common shares until they have received payment for all preceding quarters at the rate of \$0.23 per share per quarter;
- thirdly, to all Class B common shares at the applicable rate for the quarter;
- then, to all Class A and B common shares as if they were a single class.

The Class B common shares remain subordinated until the Company has paid a dividend at least equal to \$0.23 per quarter per share on both the Class A and Class B common shares for the immediately preceding four-quarter period. Due to the requirements described above, Class B common shares cannot receive any dividend until all Class A common shares have received dividends representing \$0.23 per share per quarter for all preceding quarters. Should the notional arrearages of dividend on the Class A common shares be made up and a dividend at the rate of \$0.23 per share be paid for four consecutive quarters, the Class B common shares convert to Class A common shares on a one-for-one basis. Also, each Class B common share will convert into a Class A common share on a change of control of the Company.

A dividend of \$0.10 per Class A common share was paid on August 24, 2015 and on November 24, 2015. Prior to these, the last quarter for which a dividend was paid was the fourth quarter 2008 at \$0.23 per Class A common share.

Restricted stock units have been granted from time to time to the Directors and management, under the Company's Equity Incentive Plans, as part of their compensation arrangements (see note 9). On March 31, June 30, September 30 and December 30, 2016, 8,529, 8,534, 8,534 and 8,528 shares respectively, were issued under Equity Incentive Plan, representing 20% of directors' base fee for the quarters ended March 31, June 30, September 30, and December 31, 2016. The number of shares issued was determined on the basis of a notional value per share of \$4.00 rather than market values.

(Expressed in thousands of U.S. dollars)

8. Share Capital (continued)

On August 20, 2014, the Company issued 1,400,000 depository shares, each of which represents 1/100th of one share of the Company's 8.75% Series B Cumulative Redeemable Perpetual Preferred Shares (the "Series B Preferred Shares"). Dividends are payable at 8.75% per annum in arrears on a quarterly basis. At any time after August 20, 2019 (or within 180 days after the occurrence of a fundamental change), the Series B Preferred Shares may be redeemed, at the discretion of the Company, in whole or in part, at a redemption price of \$2,500.00 per share (equivalent to \$25.00 per depository share). The net proceeds from the offering were \$33,497. These shares are classified as Equity in the Consolidated Balance Sheets. The dividends payable on the Series B Preferred Shares are presented as a reduction of Retained Earnings in the Consolidated Statements of Equity, when and if declared by the Board of Directors. An initial dividend was declared on September 22, 2014 for the third quarter 2014. Subsequent quarterly dividends have been declared, the last of which was on March 10, 2017 for the first quarter 2017.

9. Share-Based Compensation

Share based awards since January 1, 2016, are summarized as follows:

Unvested as at March 31, 2017	500,000	\$ 2.42	n/a

Using the graded vesting method of expensing the restricted stock unit grants, the calculated weighted average fair value of the stock units is recognized as compensation cost in the Consolidated Statements of Income over the vesting period. During the three months ended March 31, 2017, the Company recognized no (2016: \$33) share based compensation cost. As at March 31, 2017, there was no unrecognized compensation cost relating to the above share based awards (December 31, 2016: \$ nil).

Restricted stock units granted to four members of management on September 2, 2011 were to vest over two years; half during September and October 2012 and the remaining half during September and October 2013. In March 2012, these grants were amended and restated to provide that vesting would occur only when the individual leaves employment, for whatever reason, provided that this was after September 30, 2012 in respect of half of the grant and after September 30, 2013 for the other half of the grant. Restricted stock units granted to management on March 13, 2012 are expected to vest when the individual leaves employment, provided that this is after September 30, 2014 and is not as a result of resignation or termination for cause. Restricted stock units granted to management on March 7, 2013 are expected to vest when the individual leaves employment, provided that this is after September 30, 2015 and is not as a result of resignation or termination for cause.

On August 28, 2015, the Company adopted the 2015 Equity Incentive Plan which allows the Board of Directors to grant employees, consultants and directors of the Company and its subsidiaries, options, stock appreciation rights, stock grants, stock units and dividend equivalents on substantially the same terms as the 2008 Plan, which was closed for further awards. The 2015 Plan permits a maximum issuance of 1,500,000 shares.

9. Share-Based Compensation (continued)

Under the 2015 Plan, restricted stock units granted to four members of management on March 3, 2016 were divided into two tranches. The first tranche (100,000 restricted stock units) will vest when the individual leaves employment, provided that this is after December 31, 2016 and is not for cause. The second tranche (100,000 restricted stock units) also vests after December 31, 2016 on the same terms, but, in addition, only if and when the stock price has been at or above \$5.00 for 20 consecutive trading days and provided that this has occurred before December 31, 2019.

During the year ended December 31, 2016, 34,125 shares were issued under the 2015 Plan, representing 20% of directors' base fee for 2016. The number of shares issued was determined on the basis of a notional value per share of \$4.00 rather than market values.

10. Earnings per Share

Basic earnings per common share is presented under the two-class method and is computed by dividing the earnings applicable to common stockholders by the weighted average number of common shares outstanding for the period.

Under the two class method, net income available to common stockholders, if any, is first reduced by the amount of dividends declared in respect of common shares for the current period, if any, and the remaining earnings are allocated to common shares and participating securities to the extent that each security can share the earnings assuming all earnings for the period are distributed. The Class B common shareholders' dividend rights are subordinated to those of holders of Class A common shares (see note 8). Net income for the relevant period is allocated based on the contractual rights of each class of security and as there was insufficient net income to allow any dividend on the Class B common shares no earnings were allocated to Class B common shares.

Losses are only allocated to participating securities in a period of net loss if, based on the contractual terms, the relevant common shareholders have an obligation to participate in such losses. No such obligation exists for Class B common shareholders and, accordingly, losses would only be allocated to the Class A common shareholders.

At March 31, 2017, there were 500,000 restricted stock units granted and unvested as part of management's equity incentive plan. As of March 31, 2017 only Class A and B common shares are participating securities.

For the three months ended March 31, 2017 and 2016, the diluted weighted average number of Class A common shares outstanding is the same as the basic weighted average number of shares outstanding, including the RSU's without service conditions. The diluted weighted average number of shares excludes any outstanding share-based incentive awards as these would have had an antidilutive effect.
