Global Ship Lease Declares Fourth Quarter 2008 Dividend of \$0.23 Per Share

Amends \$800 Million Credit Facility to Improve Financial Flexibility; Maintains
Dividend Policy

LONDON, ENGLAND, February 10, 2009 – Global Ship Lease, Inc. (NYSE:GSL, GSL.U and GSL.WS), a rapidly growing containership charter owner, today announced the Company's Board of Directors has declared a fourth quarter dividend of \$0.23 per Class A common share and unit and Class B common share. The dividend is payable on March 5, 2009 to Class A common shareholders and unit holders and Class B common shareholders of record on February 20, 2009.

Ian Webber, Chief Executive Officer of Global Ship Lease, commented, "We are pleased to have declared our fourth quarter dividend, the Company's third \$0.23 distribution since going public in August of 2008. In response to the unprecedented volatility in the financial markets and in appraised ship values, we proactively approached our lenders in order to reduce our risk with respect to our loan to value maintenance covenant under the Company's credit facility. Working closely with our bank group, which has significant experience with ship lending, we have favorably amended our credit facility at attractive borrowing rates with modest upfront cost in a very challenging economic and financial environment. With the amended facility in place, Global Ship Lease has significantly reduced its exposure to pressures on ship valuations and enhanced its ability to continue providing shareholders with attractive dividends. The declaration of the fourth quarter distribution and the successful conclusion of our negotiations with our lenders further demonstrate the stability of our business model, which is focused on securing all of our vessels on long-term fixed rate contracts to generate stable and predictable cash flows."

Under terms of the Company's amended \$800 million credit agreement, Global Ship Lease has obtained significant relief with respect to its loan to value maintenance covenant. Specifically, the allowed ratio of borrowings to ship values will be increased to a maximum of 100%, from 75% previously, applicable for each of the test dates commencing with the next which is due April 30, 2009 up to and including the test due on April 30, 2010. During this period, the Company will have no restrictions on its ability to distribute dividends unless the loan to value

ratio exceeds 90%, at which point, Global Ship Lease will be required to place 50% of its quarterly cash available for distribution in a pledged account. The pledged account would be released back to the Company if loan to value falls back below 90% during a subsequent valuation period. As part of the amended facility, the Company has agreed to increase the margin of interest paid on the existing loan to value pricing grid by 50 basis points, and the grid has been extended to accommodate higher loan to value ratios. The facility will now bear an interest margin ranging from 1.25% to 2.75% over LIBOR, depending on loan to value. In addition, the commitment fee will increase to 0.50% from 0.25% and the maximum availability under the credit facility will begin to amortize from December 2011 rather than December 2012 previously.

About Global Ship Lease

Global Ship Lease is a rapidly growing containership charter owner. Incorporated in the Marshall Islands, Global Ship Lease commenced operations in December 2007 with a business of owning and chartering out containerships under long-term, fixed rate charters to world class container liner companies.

The Company has a contract in place to purchase an additional vessel for \$82 million from CMA CGM, which is expected to be delivered in July of 2009 and also has contracts in place to purchase two newbuildings from German interests for approximately \$77 million each which are scheduled to be delivered in the fourth quarter of 2010.
